**BANK ALFALAH LIMITED
AFGHANISTAN OPERATIONS
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER, 2012**

1. STATUS AND NATURE OF BUSINESS

Bank Alfalah Limited Afghanistan (“the Bank”) is a foreign branch of Bank Alfalah Limited, Pakistan and is registered and operating in Afghanistan as a commercial bank. The Bank obtained business license from Afghanistan Investment Support Agency renewed on 13 August, 2012 and is a limited liability company. The Bank commenced its operations on 05 September, 2005 under the license for commercial banking issued by Da Afghanistan Bank (DAB) under the Law of Banking in Afghanistan. Currently, the Bank has two conventional banking branches each at Kabul and Herat and one Islamic sub-branch in Kabul.

The registered office of the Bank is located in Kabul, Afghanistan.

2. BASIS OF PRESENTATION

2.1 STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and the requirements of the Law of Banking in Afghanistan. In case requirements differ, the provisions of the Law of Banking in Afghanistan prevail.

2.2 BASIS OF MEASUREMENT

These financial statements have been prepared on the historical cost basis except otherwise disclosed in accounting policies.

2.2.1 Functional and presentation currency

These financial statements are presented in Afghani which is also the Bank's functional currency. Except as otherwise indicated, the amounts in the financial statements have been rounded to the nearest thousand Afghanis.

2.2.2 Use of estimates and judgments

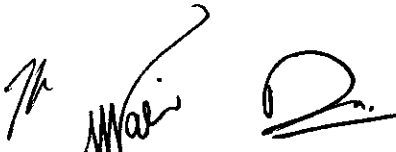

The preparation of financial statements in conformity with the international accounting standards requires management to make judgements, estimates and assumptions that affects the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which estimates is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements in note 3.2, 3.3, 3.4, 3.5, 3.8, 3.9 and 3.16

2.3 New accounting standards / amendments and IFRS interpretations that are effective for the year ended December 31, 2012

The following standards, amendments and interpretations are effective for the year ended 31 December, 2012. These standards, interpretations and amendments are either not relevant to the Bank's operations or are not expected to have significant impact on the Bank's financial statements other than certain additional disclosures.

	Effective for accounting periods beginning on or after
Amendments to IAS 12 - Income Taxes – Deferred Tax: Recovery of Underlying Assets	01 January 2012

Amendments to IFRS 7 - Financial Instruments - Disclosures: Transfer of financial assets	01 July 2011
---	--------------

2.4 New accounting standards and IFRS interpretations that are not yet effective □

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and the amendments are either not relevant to the Bank's operations or are not expected to have significant impact on the Bank's financial statements other than certain additional disclosures.

	Effective for accounting periods beginning on or after
Amendments to IAS 1 - Presentation of Financial Statements – Presentation of Items of Other Comprehensive Income	01 July 2012
Amendments to IAS 1 - Presentation of Financial Statements – Clarification of Requirements for Comparative information	January 01, 2013
Amendments to IAS 16 - Property, Plant and Equipment – Classification of servicing equipment	January 01, 2013
Amendments to IAS 19 - Employee Benefits	January 01, 2013
Amendments to IAS 32 Financial Instruments: Presentation - Tax effects of distributions to holders of an equity instrument, and transaction costs of an equity transaction	January 01, 2013

IAS 28 (Revised 2011) – Investments in Associates and Joint Ventures due to
non- adoption of IFRS 10 and IFRS 11

January 01, 2013

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand and highly liquid financial assets with original maturities of less than three months including capital notes issued by Da Afghanistan Bank, which are subject to insignificant risk of changes in their fair value, and are used by the Bank in the management of its short-term commitments.

Cash and cash equivalents are carried at amortized cost in the statement of financial position.

3.2 Financial instruments

Financial assets and liabilities are recognized when the Bank becomes a party to the contractual provisions of the instrument, and derecognized when the Bank loses control of the contractual rights that comprise the financial assets, and in case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. All financial assets and liabilities are initially measured at cost, which is the fair value of the consideration given and received respectively. These are subsequently measured at fair value, amortized cost or cost, as the case may be. Any gain or loss on derecognition of financial assets and financial liabilities is included in income for the year.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the statement of comprehensive income.

3.3 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than: (a) those that the entity intends to sell immediately or in the short term, which are classified as held for trading, and those that the entity upon initial recognition designates as at fair value through profit or loss; (b) those that the entity upon initial recognition designates as available for sale; or (c) those for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration. Cash and cash equivalents, loans and advances to banks and customers, security deposits and other receivables are classified under this category.

3.3.1 Loans and advances

Loans and advances are initially measured at fair value plus incremental direct transaction cost and subsequently measure at their amortized cost less allowance for impairment loss. Specific and general allowance for impairment are made in accordance with the requirements of the Banking Law of Afghanistan from time to time and the regulations issued by DAB in this regard. The net allowance made / reversed during the year is charged to statement of comprehensive income and accumulated provision is netted-off against advances. Advances are written off when the party is classified as loss as per DAB Regulations or when there are no realistic prospects of recovery.

M. Mair

W. A. S.

3.4 Investments

3.4.1 Classification

The Bank classifies its investments as follows:

(a) At fair value through profit or loss

Investment is classified as fair value through profit or loss when it is either held-for-trading or it is designated as at fair value through profit or loss. It is classified as held-for-trading if it is acquired principally for the purpose of selling in the short term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking.

(b) Held to maturity

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Bank's management has the positive intention and ability to hold to maturity. If the Bank sales other than an insignificant amount of held-to-maturity financial assets before its maturity, the entire category would be reclassified as available for sale. Foreign placements are classified under this category.

(c) Available for sale

Available-for-sale assets are those intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices.

Available-for-sale financial assets (AFS) are non-derivatives that are either designated as AFS or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss.

3.4.2 Regular way contracts

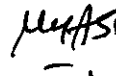

All purchases and sales of investments that require delivery within the time frame established by regulation or market convention are recognized at trade date, which is the date at which the Bank commits to purchase or sell the investments.

3.4.3 Initial recognition and measurement

Investments other than those categorized as 'held for trading' are initially recognized at fair value which includes transaction costs associated with the investment. Investments classified as 'held for trading' are initially recognized at fair value and transaction costs are charged in the statement of comprehensive income.

3.4.4 Subsequent measurement

Securities other than those classified as 'held to maturity' are subsequently remeasured to market value. Surplus / deficit arising on revaluation of securities classified as 'available for sale' is included in the statement of comprehensive income but is taken to a separate account shown in the statement of financial position below equity. Surplus/ deficit arising on revaluation of quoted securities which are 'held for trading' is taken to the statement of comprehensive income. Investments classified as 'held to maturity' are carried at amortized cost less impairment, if any.

3.5 Property and equipment

(i) Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment loss, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset. When parts of an item of property or equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment. The gain or loss on disposal of an item of property and equipment is charged in the statement of comprehensive income.

(ii) Subsequent costs

The cost of replacing part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Bank and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property and equipment is charged in the statement of comprehensive income.

(iii) Depreciation

Depreciation is charged in statement of comprehensive income on a straight-line basis over the estimated useful lives of each part of an item of property and equipment since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Depreciation on additions is charged from the date on which the assets are available for use and ceases on the date on which they are disposed off.

The estimated useful lives for the current and comparative periods are as follows:

	Prior year	Current year
Lease hold improvements	5 years	5 years
Furniture and fixtures	4 - 10 years	4 - 10 years
Electrical and office equipment	5 years	5 years
Computers	4 years	4 years
Vehicles	4 years	4 years

Depreciation methods, useful lives and residual values are reassessed at each balance sheet date and adjusted if appropriate.

3.6 Deposits

Deposits are the Bank's source of funding. Deposits are initially measured at fair value plus incremental direct transaction costs and subsequently measured at their amortized cost using effective interest method except where the Bank choose to carry the liabilities at fair value through profit or loss.

3.7 Provisions

A provision is recognized if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provision against identified non-funded losses is recognized when intimated and reasonable certainty exists for the Bank to settle the obligation. The loss is charged to the statement of comprehensive income net of expected recovery and is classified under other liabilities.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.8 Financial assets and financial liabilities

3.8.1 Recognition

The Bank initially recognized loans and advances and deposits on the date at which they are originated. All other financial assets and liabilities (including assets and liabilities designated at fair value through profit or loss) are initially recognized on the trade date at which the Bank becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through profit or loss, transaction cost that are directly attributable to its acquisition or issue.

3.8.2 Derecognition

The Bank derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset. Any interest in transferred financial asset that is created or retained by the Bank is recognized as a separate asset or liability in the statement of financial position. On de-recognition of a financial asset, the difference between the carrying amount of an asset and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in the other comprehensive income is recognized in profit or loss.

The Bank derecognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

3.8.3 Offsetting

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the Bank has the legal right to set off the recognized amounts and it intends either to settle on net basis or to realize the asset and settle the liabilities simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRSs', or for gains and losses arising from a group of similar transactions.

3.8.4 Amortized cost measurement

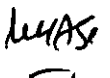

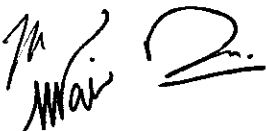

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method or any difference between the initial amount recognized and the maturity amount, minus and reduction for impairment.

3.8.5 Fair value measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

When available, the Bank measures the fair value of an instrument using quoted prices in an active market for the instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If a market for a financial instrument is not active, the Bank establishes fair value using a valuation technique.

3.9 Impairment of financial assets

3.9.1 *Impairment of financial assets carried at amortized cost*

At each reporting date, the Bank assess whether there is objective evidence that financial assets carried at amortized cost are impaired. Financial assets or a group of financial assets is (are) impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan or advance by the Bank on terms that the Bank would not otherwise consider, indication that a borrower or issuer will enter bankruptcy, disappearance of an active for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the Bank, or economic conditions that correlate with default in the Banks.

The Bank determines allowance for impairment of loans and advances in accordance with regulations issued by DAB "Asset Classifications, Monitoring of Problem Assets, Reserve for losses, and Non-approval Status".

The Bank considers evidence for impairment for loans and advances at both a specific and collective level. All individually significant loans and advances are assessed for specific impairment. All significant loan and advance found not to be significantly impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and advances that are not individually significant are collectively assessed for impairment by grouping together loans and advances with similar characteristics.

In determining the potential loss in specific loans, group of loans, or in the aggregate loan portfolio, relevant factors are considered including, but not limited to : current economic condition, historical loss experience, delinquency trends, the effectiveness of the Bank's lending policy and collective procedures, and the timeliness and accuracy of its loan review function.

The Bank writes off certain loans and advances when they are determined to be uncollectable.

Impairment losses on assets carried at amortized cost are measured as the difference between the carrying amount of the financial asset and present value of estimated future cash flows discounted at the assets' original effective interest rate. Losses are recognized in the statement of comprehensive income and reflected in an allowance account against loans and advances. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the impaired loss is reversed through the statement of comprehensive income.

3.9.2 **Impairment of financial assets classified as available for sale**

The Bank assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on those financial assets previously recognized in the statement of comprehensive income is removed from equity and recognized in the statement of comprehensive income. Impairment losses recognized in statement of comprehensive income on equity instruments are not reversed through the statement of comprehensive income. If in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the statement of comprehensive income, the impairment loss is reversed through the statement of comprehensive income, related to an event occurring after the impairment loss was recognized.

3.10 Impairment of non-financial assets

Non-financial assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment. Non-financial assets that are subject to depreciation/ amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss or reversal of impairment loss is recognized in the statement of comprehensive income. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date. Reversal of the impairment losses is restricted to the original cost of the assets.

3.11 Financial guarantees

Financial guarantees are contracts that require the Bank to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantee liabilities are recognized initially at their fair value, and the initial fair value is amortized over the life of the financial guarantee. The financial guarantee liability is subsequently carried at the higher of this amortized amount and the present value of any expected payment when a payment under the guarantee has become probable. Financial guarantees, if any, are included within other liabilities.

3.12 Equity

Assigned capital from Head Office plus retained earnings comprise equity of the Bank.

3.13 Interest income and expense and other income

Interest income and expense are recognized in the statement of comprehensive income using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest rate includes all fees paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

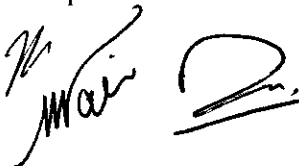

Interest income and expense presented in the statement of comprehensive income include interest on financial assets and financial liabilities measured at amortized cost calculated on an effective interest basis.

As per regulations issued by Da Afghanistan Bank titled " Asset Classifications, Monitoring of problem Assets, Reserve for losses, and Non - accrual Status", accrued interest is reversed for loans and advances that are classified in non-accrual status.

Gains and losses on disposal of property and equipment are recognized in the period in which disposal is made.

3.14 Fees and commission

Fee, commission and brokerage income except income from letters of credit and guarantees are accounted for on receipt basis. Commission on letters of credit and guarantees is recognised on time proportion basis.

3.15 Lease payments

Payments made under operating leases are recognized in the statement of comprehensive income on a straight line basis over the term of the lease. Lease incentives received are recognized as an integral part of the total lease expense over the term of the lease.

3.16 Taxation

Income tax expense comprise current and deferred tax. Current and deferred tax are recognized in statement of comprehensive income except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

Current

Current tax is the expected tax payable on the taxable income for the year using tax rates enacted at the balance sheet date and any adjustment to tax payable in respect of previous years. The current income tax charge is calculated in accordance with Income Tax Law, 2009.

Deferred

Deferred tax is recognized using the balance sheet liability method on all temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for the taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amounts of assets and liabilities using the tax rates enacted at the balance sheet date. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available and the credits can be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realized.

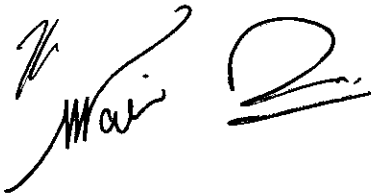

3.17 Staff retirement benefits

Defined benefit plan

The Bank operated an approved funded gratuity scheme covering eligible employees whose period of employment with the Bank is five years or more. Gratuity is payable to the staff on completion of the prescribed qualifying period of service. The scheme is operated through Head Office.

Defined contribution plan

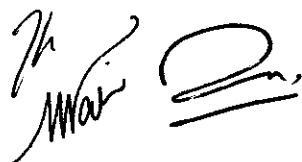

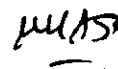

The Bank operates a recognized provident fund scheme for all its permanent employees to which equal monthly contributions are made both by the Bank and employees at the rate of 8.33 percent of basic salary. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due. The scheme is managed through Head Office.

3.18 Foreign currencies translation

Foreign currency transactions are translated into functional currency using the exchange rate prevailing at the date of the transaction. Foreign currency assets and liabilities are translated using the exchange rate at the balance sheet date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of assets and liabilities denominated in foreign currencies are recognized in income currently.

6.7 Allowances for impairment

Collective allowances for impairment

Balance at beginning of the year		24,887	-
Charge for the year		15,870	24,887
Reversal during the year		(1,467)	-
		14,403	24,887
Write off during the year	6.7.1	(16,652)	-
Balance at end of the year	6.7.2	<u>22,638</u>	<u>24,887</u>

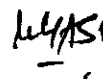

6.7.1 This represents 'loss' category loan which has been written off during the year in accordance with the requirements of the Banking Regulations issued by DAB (the DAB Regulations). However, in terms of paragraph 3.3.1(g) of part C of the DAB Regulations, the write-off does not affect the Bank's rights to recover the debt due from customers and does not eliminate the borrowers' responsibility to repay the loan.

6.7.2 As at 31 December, 2012, there is no overdue loan to be classified in the category watch-list, substandard or doubtful. However, on prudence basis, the management of the Bank has recorded general provision at the rate of 1.5% of the total advances (excluding credit card loans) as at 31 December, 2012. Credit card loans are fully secured against cash margins.

24. Financial risk management

The Bank is a foreign branch of Bank Alfalah Limited Pakistan (Head office), therefore, the Board of Directors of the Head Office (the Board) has overall responsibility for the establishment and oversight of risk management framework of the Head Office as well as overseas branches. The Board has established the Management Board, Asset and Liability Committee (ALCO), a Credit Committee and Board Risk Management Committee and Board Audit Committee which are responsible for developing and monitoring risk management policies in their specified areas. All Board committees have both executive and non-executive members and report regularly to the Board of Directors on their activities. The Management Board assists in these functions by the Internal Audit, Compliance and Risk Management Division at the Head Office. The Head Office appoints Country Head specifically to oversee operations in Afghanistan and to manage the risks in accordance with the risk management policies of the Head Office.

The Bank's Internal Audit and Compliance Departments in Afghanistan are responsible for monitoring compliance with the risk management policies and procedures, and for reviewing adequacy of risk management framework in relation to the risks faced by the Bank.

The Bank has exposure to the following risks from its use of financial instruments

- a) Credit risk
- b) Liquidity risk
- c) Market risk

This note presents information about Bank's exposure to each of the above risks, the Bank's objectives, policies and processes for measuring and managing risk, and the Bank's management of capital.

24.1 Credit risk

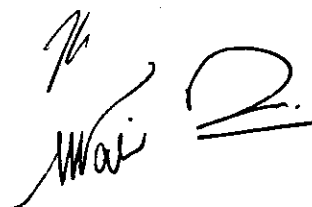

Credit risk management process encompass identification, assessment, measurement, monitoring and control of credit risk exposure. In the Bank's experience, a key to effective credit risk management is a well thought out business strategy. The Bank's focus over the coming years will be to further enhance risk models, processes and systems infrastructure, in line with its ambition to bring maximum sophistication to the risk management function.

The Board has delegated responsibility for the management of credit risk to its Head Office Credit Committee. A credit department has been established by the Bank that is responsible for oversight of the Bank's credit risk and which is reportable to the Head Office Credit Committee. The Credit department is headed by Group Head Credit who with the assistance of credit department staff looks after credit risk matters and conduct portfolio analysis for managing credit risk.

The Bank has established and maintained a sound loan portfolio in terms of well-defined credit policy approved by the Board of Directors. The credit evaluation system comprises of well designed credit appraisal, sanctioning and review procedures for the purposes of emphasizing prudence in lending activities and ensuring the high quality of asset portfolio. The function is also supported by Credit Administration and Credit Monitoring Departments at Head Office level to ensure segregation of duties and efficient management of credit risk. The Banks manages its portfolio of loan assets with a view to limit its concentrations in terms of risk quality, geography, industry, maturity and large exposure.

The amount of credit risk in this regard is represented by the carrying amounts of the assets on the balance sheet date. Exposure to credit risk managed through regular analysis of borrower to meet interest and capital repayment obligations and by changing their lending limits where appropriate. Exposure to credit risk is also managed against personal guarantee of the borrower and mortgage of immoveable property duly registered with the Court of Law and hypothecation over stock and current assets duly verified by the Bank's Credit Officer on monthly basis.

A sophisticated Internal Credit Rating System has been developed by the Bank, which is capable of quantifying counter-party and transaction risk in accordance with the best practices. The system takes into consideration qualitative and quantitative factors of the counter-party, transaction structure, security etc. and generates an internal rating vis-a-vis anticipated customer behavior.

Credit concentration risk

Credit concentration risk arises mainly due to concentration of exposures under various categories viz. industry, geography, and single/group borrower exposures. Within credit portfolio, as a prudential measure aimed at better risk management and avoidance of concentration of risks, Da Afghanistan Bank has prescribed regulatory limits on bank's maximum exposure to single borrower and group borrowers. DAB's regulations restrict concentration in any sector beyond 12% of total assets. BAL Afghanistan's annual credit plan spells out the maximum allowable exposure that it can take on specific industries for every business group.

Maximum exposure to credit risk before collateral held or other credit enhancements

	Maximum exposure	
	2012	2011
	Afs '000'	
Credit risk exposures relating to on-balance sheet assets are as follows:		
Cash and cash equivalents	4,370,945	4,706,062
Loans and advances to banks	1,769,403	1,653,622
Loans and advances to customers	1,488,326	1,636,860
Investments	521,400	493,400
Others assets	931,721	910,428
	<u>9,081,795</u>	<u>9,400,372</u>

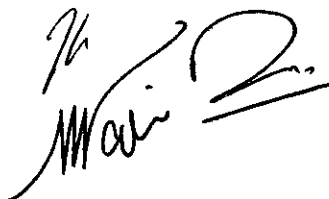

Credit risk exposures relating to off-balance sheet items are as follows:

Letter of credit and acceptances	989,978	1,371,401
Guarantees	621,744	296,022
Others	-	493
	<u>1,611,722</u>	<u>1,667,916</u>

The above table represents credit risk exposure to the Bank at 31 December, 2012 and 31 December, 2011, without taking account of any collateral held or other enhancements attached. For on-balance-sheet assets the exposure set out above is based on net carrying amounts as reported in the statement of financial position.

Credit quality of financial assets

The credit qualities of Bank's financial assets have been assessed below by the reference to external credit ratings of counter parties determined by various international credit rating agencies. The counterparties for which external credit ratings were not been available have been assessed by reference to internal credit ratings determined based on their historical information for any defaults in meeting obligations. Cash and placements are held with reputable banks with high quality external credit ratings.

Loans and advances

	<i>Note</i>	Assets at amortized cost	Available- for-sale assets	Assets at fair value through profit or loss	Total carrying amount
< ----- Afs 000 ----- >					
Loans and advances to customers and banks	5 & 6	3,257,729	-	-	3,257,729
<u>Neither past due but nor impaired:</u>					
Gross amount		1,510,964	-	-	1,510,964
Allowance for impairment		(22,638)	-	-	(22,638)
Carrying amount		1,488,326	-	-	1,488,326
<u>Carrying amount-amortized cost:</u>					
		1,488,326	-	-	1,488,326
2011					
Loans and advances to customers and banks	5 & 6	3,290,482	-	-	3,290,482
<u>Collectively impaired</u>					
Gross amount		15,642	-	-	15,642
Allowance for impairment		(782)	-	-	(782)
Carrying amount		14,860	-	-	14,860
<u>Past due but not impaired:</u>					
Gross amount		-	-	-	-
<u>Neither past due but nor impaired:</u>					
Gross amount		1,646,105	-	-	1,646,105
Allowance for impairment		(24,105)	-	-	(24,105)
Gross amount		1,622,000	-	-	1,622,000
<u>Carrying amount-amortized cost:</u>		1,636,860	-	-	1,636,860

As at balance sheet date, loan portfolio of the Bank was not impaired.

In addition to the above, there were no lending commitments which is pending for disbursement.

Cash and cash equivalents

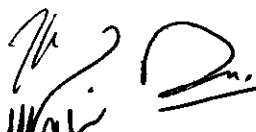

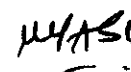

As of the reporting date, the Bank held cash and cash equivalents amounting to Afs 9,128.05 million (2011: Afs 8,986.67 million) which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with the Da Afghanistan Bank and other banks. Management believes that cash and cash equivalents are not exposed to significant credit risk as disclosed. The geographical profile of cash and cash equivalents has been disclosed in note 4.4 to these financial statements.

Past due but not impaired loans

Past due but not impaired loans are those for which contractual interest or principal payments are past due but the Bank believes impairment is not appropriate.

Allowances for impairment

The Bank establishes an allowance for impairment losses on assets carried at amortized cost that represents its estimate of incurred losses in its loan portfolio. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loan loss allowance established for the groups of homogeneous assets in respect of losses that have been incurred but have not been identified on loans that are considered individually insignificant as well as individually significant exposures that were subject to individual assessment for impairment but not found to be individually impaired.

All loans and advances are classified into one of the five classification grades mentioned below for minimum provisioning amounts in accordance with the regulations of Da Afghanistan Bank

Loan grading	Days past due	Percentage %
Standard	None	0%
Watch	31 - 60 days	5%
Substandard	61 - 90 days	25%
Doubtful	91 - 180 days	50%
Loss	Over 180 days	100%

Write-off policy

The Bank writes off loans or advances and any related allowances for impairment losses, when the Bank's Credit department determines that the loans are uncollectible. This determination is reached after considering information such as the occurrence of significant changes in the borrower's financial position such that the borrower can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. Before allowing to written off, it is ensured that all possible avenues of recovery, inclusive of legal action are exhausted or legal action is not advisable.

The Bank holds collateral against loans and advances in the form of mortgage interest over property, other registered securities over assets, and guarantees. Estimates of fair value are based on the value of collateral assessed at the time of borrowing and generally are not updated except when a loan is individually assessed as impaired.

An estimate of the fair value of the collateral and other security enhancements held against loans and advances to customers is shown below:

	2012 Afs '000'	2011 Afs '000'
Against neither past due nor impaired		
Properties	2,820,158	1,883,501
Debt securities	-	987,532
Others	2,045,646	2,045,646
Total	4,865,804	4,916,679

Concentration of credit risks by sector

All the loans have been disbursed in geographical territory of Afghanistan. The Bank monitors concentrations of credit risk by sector. An analysis of concentrations of credit risk of loans and advances to customers and banks at reporting date is as follows:

Segments by class of business	Note	2012 Afs '000'	2011 Afs '000'
Chemical and Pharmaceuticals		60,467	61,349
Construction		91,681	-
Exports/Imports		418,451	144,888
Financial		1,769,403	1,653,622
Food & Allied Products		260,348	222,012
Iron / Steel		-	184,583
Individuals		1,725	-
Power (electricity), Gas, Water, Sanitary		389,247	-
Travel and Leisure		220,117	-
Wholesale and Retail Trade		-	728,823
Others		46,290	295,205
		3,257,729	3,290,482

Settlement risk

The Bank's activities may give rise to risk at the time of settlement of transactions and trades, if any. Settlement risk is the risk of loss due to failure of an entity to honour its obligations to deliver cash, securities or other assets as contractually agreed.

For certain types of transactions, the Bank mitigate this risk by conducting settlements through a settlement / clearing agent to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations. Settlement limits form part of the credit approval / limit monitoring process described earlier. Acceptance of settlement risk on free settlement trades require transactions specific or counterparty specific approvals from the Bank's risk department.

24.2 Liquidity risk

Liquidity risk is the potential for loss to the bank arising from either its inability to meet its obligations or to fund increase in assets as they fall due without incurring unacceptable cost or losses.

The Bank's Asset and Liability Committee (ALCO) manages the liquidity position on a regular basis and is primarily responsible for the formulation of the overall strategy and oversight of the asset liability function. ALCO monitors the maintenance of liquidity ratios, depositors concentration both in terms of the overall funding mix and avoidance of undue reliance on large individual deposits. Moreover, as a core retail deposits form a considerable part of the Bank's overall funding mix therefore significant importance is being given to the stability and growth of these deposits. The BOD has approved a comprehensive liquidity management policy which stipulates the early warning indicators of liquidity risk and maintenance of various ratios. Further, the Bank has designed different scenarios of cash outflows to stress test efficacy of its liquid assets and its impact on profit and loss. The results are regularly reviewed by ALCO for taking appropriate measures.

The Bank relies on deposits from customers as its primary source of funding. Deposits from customers generally has shorter maturities and large proportion of them are repayable on demand. For day to day liquidity risk management integration of liquidity scenario will ensure that the Bank is best prepared to respond to an unexpected problem.

The key measure used by the Bank for managing liquidity risk is the ratio of net liquidity assets to deposits from customers. For this purpose net liquid assets are considered as including cash and cash equivalent less any deposits from banks. A similar, but not identical, calculation is used to measure the Bank's compliance with the liquidity limit established by the Bank's Regulator (Da Afghanistan Bank). Detail of the reported Bank ratio of net liquid assets to deposits from customers at the reporting date and during the reporting period was as follows:

	2012	2011
At 31 December	81.91%	80.54%
Average for the period	79.71%	80.54%
Maximum for the period	84.48%	56.16%
Minimum for the period	72.13%	70.49%

Maturity analysis for financial liabilities

Note	Carrying amount	Gross nominal inflow/ (outflow)	3 months to 1 year					
			Upto 1 month	1-3 months	3 months to 1 year	1-5 years	More than 5 years	
<----- Af\$ 000 ----->								
2012								
Deposits from banks	10	478,687	(478,687)	(478,687)	-	-	-	-
Deposits from customers	11	12,694,695	(12,694,695)	(11,535,983)	-	(1,158,712)	-	-
Other liabilities	13	38,322	(38,322)	-	-	-	-	-
		<u>13,211,704</u>	<u>(13,211,704)</u>	<u>(12,014,670)</u>	<u>-</u>	<u>(1,158,712)</u>	<u>-</u>	<u>-</u>
2011								
Deposits from banks	10	4,015	(4,015)	(4,015)	-	-	-	-
Deposits from customers	11	13,307,541	(13,307,541)	(12,052,077)	(68,464)	(1,187,000)	-	-
Other liabilities	13	17,413	(17,413)	-	-	-	-	-
		<u>13,328,969</u>	<u>(13,328,969)</u>	<u>(12,056,092)</u>	<u>(68,464)</u>	<u>(1,187,000)</u>	<u>-</u>	<u>-</u>

The above table shows the undiscounted cash flows on the Bank's financial liabilities on the basis of their earliest possible contractual maturities.

24.3 Market risk

Market risk is the risk of loss in earnings and capital due to on and off balance sheet positions arising out of adverse changes in interest rates, foreign exchange rates, equity prices and market conditions. It also includes investments and structural positions in the banking books of the Bank. To manage and control market risk a well defined limits structure is in place. These limits received, adjusted and approved periodically. Market risk can be further described into:

24.3.1 Interest rate risk

The interest rate risk arises from the fluctuation in the value of financial instruments consequent to the changes in the market interest rates. The Bank is exposed to interest rate risk as a result of mismatches or gaps in the amounts of assets and liabilities and off-balance sheet instruments that mature or re-price in a given period. In order to ensure that this risk is managed within acceptable limits, the Bank's Asset and Liability Management Committee (ALCO) monitors the re-pricing of the assets and liabilities on a regular basis. The Bank's interest rate risk is limited since the majority of customer deposits are retrospectively re-priced on a biannual basis on the profit and loss sharing principles. The Bank's interest rate gap position on its financial assets and financial liabilities is as follows:

	Note	Carrying amount	Upto three months	3-6 months	6-12 months	1-5 years	More than 5 years
<----- Af\$ 000 ----->							
2012							
Cash and cash equivalents	4	4,185,274	4,185,274	-	-	-	-
Loans and advances to banks	5	1,769,403	1,263,079	506,324	-	-	-
Loans and advances to customers	6	1,488,326	713,964	185,199	255,053	334,110	-

		<u>7,616,376</u>	<u>1,326,709</u>	<u>4,473,812</u>	<u>412,378</u>	<u>912,200</u>	<u>491,277</u>
Deposits from customers	11	2,872,882	1,617,418	68,464	1,187,000	-	-
Total yield/ interest risk sensitivity gap		<u>4,743,494</u>	<u>(290,709)</u>	<u>4,405,348</u>	<u>(774,622)</u>	<u>912,200</u>	<u>491,277</u>

24.3.2 Foreign currency risk

Foreign exchange risk arises from the fluctuation in the value of financial instruments consequent to the changes in foreign exchange rates. The Bank manages this risk by setting and monitoring dealer, currency and counter-party limits for on and off-balance sheet financial instruments.

Off-balance sheet financial instruments are contracts which are the resultant outcome of the import and export transactions. Moreover, counterparties enter into forward transactions in inter-bank market on behalf of customers to cover-up their position against stipulated risks. The buy and sell transactions are matched in view of their maturities in the different predefined time buckets.

The Bank's exposure to foreign currency risk, based on notional amount, is as follows:

	Afs	US\$	Euro	GBP
2012				
Cash and cash equivalents	2,501,325	6,222,037	355,042	49,653
Loans and advances to banks	-	1,769,403	-	-
Loans and advances to customers	505	1,487,821	-	-
Investments	-	1,044,777	-	-
Other assets	884,100	51,818	-	-
	3,385,930	10,575,856	355,042	49,653
Deposits from banks	47,715	2,972	-	-
Deposits from customers	2,951,580	9,768,359	354,410	48,346
Other liabilities	37,254	4,115	-	-
	3,036,549	9,775,446	354,410	48,346
Net foreign currency exposure	349,381	800,410	632	1,307
2011				
Cash and cash equivalents	2,786,971	5,729,066	439,223	31,405
Loans and advances to banks	-	1,653,622	-	-
Loans and advances to customers	-	1,636,860	-	-
Investments	-	984,677	-	-
Other assets	908,801	5,681	27	-
	3,695,772	10,009,906	439,250	31,405
Deposits from banks	2,400	1,555	60	-
Deposits from customers	3,510,219	9,329,282	436,642	31,398
Other liabilities	19,458	6,727	-	-
	3,532,077	9,337,564	436,702	31,398
Net foreign currency exposure	163,695	672,342	2,548	7

The following significant exchange rates have been applied during the year.

	31-Dec-12		31-Dec-11	
<i>in Afs</i>	Average rate	Reporting date spot rate	Average rate	Reporting date spot rate
US\$	51.03	52.14	46.96	49.34
Euro	65.66	68.65	65.46	63.87
GBP	80.15	83.25	75.08	76.16

The average rates represent average of 12 months mid rate of each month end.

Sensitivity analysis

A 10% strengthening of the Afghani, as indicated below, against the USD, euro and GBP at 31 December 2012 would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Bank considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant.

	31-Dec-12		31-Dec-11	
	Equity	Profit or loss	Equity	Profit or loss
	<----- Afs 000 ----->			
US\$	(80,041)	(80,041)	(67,234)	(67,234)
Euro	(63)	(63)	(255)	(255)
GBP	(131)	(131)	(1)	(1)

A 10% weakening of the Afghani against the above currencies at 31 December 2012 would have had the equal but opposite effect to the amounts shown above, on the basis that all other variables remain constant.

24.4 Financial instruments measured at fair value using a valuation technique

The table below analyses financial instruments carried at fair value, by valuation method. The various fair value levels have been defined as follows:

Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 : inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at December 31, 2012, the Bank does not hold any financial asset measured at fair value.

24.5 Capital management

Regulatory capital

The Banks' regulator Da Afghanistan Bank sets and monitors capital requirements for the Bank. The capital adequacy of the Bank is assessed in two tiers as per regulations of the Da Afghanistan Bank. As referred in Note 14 to these financial statements, the Bank is required to increase the capital to Afs 1 billion till 31 December 2012. As at 31 December, 2012, the Bank has net equity of Afs 1,121.98 million and was in compliance with the net equity requirement of the DAB.

- Tier 1 or core capital, consisting of the highest quality capital elements that fully meet all the essential characteristics of capital; to be 6% of risk weighted assets.

- Tier 2 or supplementary capital, which includes other instruments which, to a varying degree, fall short of the quality of Tier 1 capital, but nonetheless contribute to the overall strength of a bank as a going concern.

Regulatory capital is the sum of Tier 1 and Tier 2 capital and Tier 2 capital cannot exceed amount of Tier 1 capital. The Bank complies with these regulations.

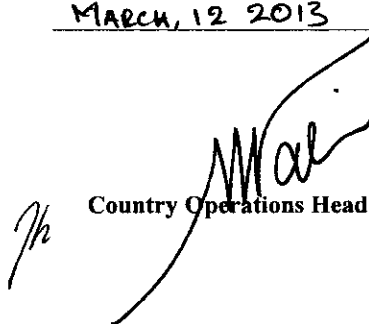

The Bank's regulatory capital position at 31 December 2012 was as follows:

	<u>2012</u> <u>Afs '000'</u>	<u>2011</u> <u>Afs '000'</u>
Tier 1 capital	<u>1,121,980</u>	<u>826,911</u>
Tier 2 capital	<u>-</u>	<u>-</u>
Total regulatory capital	<u>1,121,980</u>	<u>826,911</u>
